Acknowledgements

This report was developed with help and support from a wide range of people on the Colorado Plateau. Tonnie Maniero of the Air Resources Division provided oversight for the project, and coordinated many of the pieces that were assembled into this report. We thank Ms. Maniero and the people listed below for their substantial contributions to this project:

People Contacted at Each Park or Monument

Air Resources Division Denver

David Joseph - Air Quality Data

Miguel Flores

John D. Ray

Tom Dotts

Arches National Park

Karen McKinlay-Jones

Eric Gdulah - Geographic Information System (GIS)

Bandelier National Monument

Charisse Sydoriak

Kay Beeley

Black Canyon of the Gunnison National Monument

Rick Harris

Myron Chase

Sarah Beach - GIS

Richard Bryan

Canyonlands National Park

Tara Williams

Capitol Reef National Park

Tom Clark

Jennifer Norton - GIS

Grand Canyon National Park

John Ray

Carl Bowman - Air Quality Specialist

Dan Spotsky - GIS

Great Sand Dunes National Monument

Fred Bunch

Andrew Valdez - GIS

Mesa Verde National Park

Linda Towle

Marilyn Colyer

Petrified Forest National Park

Mark Depoy

Zion National Park

Sherry Fedorchak

Darla Sidles

David Sinton

Dave Cohen - GIS

Dena McNally - Supervisor Dispatch, Climate Information

Other Scientists and Resource Managers Contacted

Dr. Craig Allen - Jemez Mountains Field Station; water quality and plant ecology

Dr. Jill Baron - USGS, Research Ecologist, Colorado State University; tinajas and rock pools

Dr. Breck Bartholomew - Logan, Utah; amphibians and reptiles

Dr. Jayne Belnap - USGS, Canyonlands Field Station; cryptobiotic soil crusts

Mr. Kevin Berghoff - Glen Canyon National Recreation Area; tinajas

Dr. Dean Blinn - Northern Arizona University; aquatic invertebrates

Dr. Michael Bogan - USGS, Arid Lands Field Station, New Mexico; mammals

Dr. Roger Clark - USGS, Denver Federal Center; cryptobiotic soil

Dr. Kenneth Cole - University of Minnesota; pre-settlement grasslands

Ms. Cathy Copeland - National Atmospheric Deposition Program; NADP data

Ms. Carol Dawson - Denver Botanic Gardens; endangered, threatened or rare plants

Ms. Elena Deshler - Colorado Plateau Research Station; data archives

Dr. Hobart Dixon - Adams State College; lichens

Dr. Richard Flagler - National Atmospheric Deposition Program, Fort Collins; ozone and NADP data

Dr. James Fowler - University of Wyoming; hanging gardens

Dr. Tim Graham - U.C. Davis/USGS Cooperative Park Studies Unit; rock pool communities

Dr. W. David Hacker - New Mexico Highlands University; acid deposition and heavy metals in snow

Mr. Dennis Haddow - USFS, Denver; air resource management specialist

Dr. Lisa Floyd-Hanna - Prescott College; fire history and vegetation

Dr. Kenneth Heil - San Juan College; endangered, threatened or rare plants

Dr. David Jardine - Los Alamos National Laboratory; air quality monitoring

Dr. William Kepner - EPA, Environmental Systems Lab; environmental monitoring, EMAP-arid

Dr. Boris Kondratieff - Colorado State University; arthropods

Mr. Toben LaFrancois - Colorado State University, Graduate Degree Program in Ecology; tinajas

Mr. Peter Lahm - USFS, Arizona; fire emissions

Dr. Sam Loftin - USFS, Albuquerque, New Mexico; cryptogamic soil

Mr. Barry Long - NPS, Water Resources Division; water quality

Dr. John MacDonald - Purdue University; aquatic insects

Mr. Fred Mangum - USFS, Regional Aquatics Lab, Provo, Utah; invertebrates

Ms. Linda Mazzu - BLM, Oregon; ozone monitoring

Dr. E.D. McArthur - USFS, Intermountain Research Station; vegetation patterns
Dr. Robert Musselman - USDA/USFS, Forest and Range Experimental Station; ozone
Ms. Anne Neale - EPA; environmental monitoring, EMAP-arid
Ms. Renee O'Brien - USFS, Intermountain Research Station, Utah; forest land resources
Dr. Frederick Peabody - University of South Dakota; endangered, threatened or rare plants
Ms. Edith Pope - Air Resource Specialists, Fort Collins; climate information
Mr. Michael Reichert - Utah Division of Water Quality, Department of Environmental Health;
macroinvertebrate monitoring program
Dr. John Spence - Botanist and vegetation ecologist; endangered, threatened or rare plants
Dr. Al Spencer - Fort Lewis College; amphibians
Dr. Jack Stanford - University of Montana, Flathead Lake Biological Station; aquatic insects
Ms. Lynette Stevens - Colorado State University; water quality and invertebrates
Mr. Nicholas Van Pelt - The Nature Conservancy; relict plant communities
Mr. James Wagner - Air Resource Specialists, Fort Collins; air quality information
Dr. Darrell Weber - Brigham Young University; juniper
